

British Ski Slope Operators Association

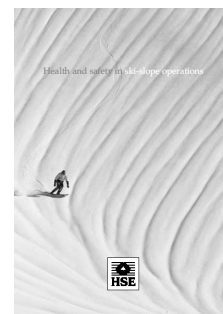

The British Ski Slope Operators' Association (BSSOA) is the trade association for ski slopes in the UK and the industry's focal point for centre operation.

Benefits

BSSOA members value many benefits including:

- Code of Practice promising customer assurance of a quality experience
- Promotion via the Slope Finder map www.bssoa.co.uk
- Influential representation within the UK snowsport industry
- Member meetings throughout the UK
- Working groups for industry initiatives
- **Linked in**® Members' discussion Group
- BSSOA partner marketing initiatives

Testimonials

"We have been members of the BSSOA for some years and find the membership invaluable. BSSOA provide up to date information that keeps us fully apprised about industry best practice. I have also had several conversations with our Welsh Representative, Nigel, who is always extremely helpful and often goes out of his way to answer my queries."

Ceri Downie, Manager, Cardiff Ski and Snowboard Centre

"Membership of BSSOA gives me the opportunity to share ideas and statistics with other operators. This helps me to innovate and improve the quality of our products and, very importantly, our bottom line"

Nigel Treacy, Manager Llandudno Ski & Snowboard Centre

"I really value being able to use BSSOA's network to speak with other member slopes to seek advice and help me solve problems"

Oscar Wild, Manager Glasgow Ski & Snowboard Centre

"BSSOA is *the* recognised organisation providing operators with representation and support. The support structure allows industry professionals to benchmark and discuss operational issues. I can attend BSSOA meetings or easily pick up the telephone to seek advice. The last open forum meeting attracted leading industry players for networking and, quite honestly, I thought it was superb."

Peter Hinde, Business Development Manager Chill Factor^e, Manchester
